Question 1: (5 Marks)

What is the Waterfall model?

- A An iterative development model
- B A linear and sequential software development model
- C A model emphasizing rapid prototyping
- D A model focused on user involvement throughout development

Which model involves breaking the development process into small parts called iterations?

- A Waterfall model
- B Spiral model
- C Agile model
- D V-Model

What is the main disadvantage of the Waterfall model?

- A High flexibility
- B Difficulty in accommodating changes
- C Emphasis on user involvement
- D Rapid development pace

What is the primary characteristic of the Prototype model?

- A Sequential development
- B Emphasis on risk management
- C Quick creation of a model to visualize requirements
- D Minimal documentation

Which Agile practice involves short development cycles with regular reassessment and adaptation?

- A Scrum
- B Kanban
- C Extreme Programming (XP)
- D Feature-Driven Development (FDD)

Question 2: (10 Marks)

For the following case study, write down the user and system requirements

The Blood Bank Management System (BBMS) is an application that stores, processes, retrieves, and analyses data about blood bank administration. It also supervises blood inventory management and other blood bank-related activities. The major goal of the blood bank management system is to keep track of blood, donors, blood groups, blood banks, and stock information. It keeps track of all information concerning blood, blood cells, stocks, and blood.

Question 3: (10 Marks)

For the following case study, write down the nonfunctional requirements and the system stakeholders

Online seat reservation is a system developed in order to simplify and further improve the process of reserving a seat by a traveller in an airline agency. This system provides a traveller with facilities he/she needs to book a seat, providing his/ her travel details the system automatically finds a suitable seat according to the details supplied by the traveller and makes a reservation for them.

Question 4: (5 Marks)

Draw the activity diagram for Online Shopping System
